# **Safety Data Sheet**

This safety data sheet was created pursuant to the requirements of: Regulation (EC) No. 1907/2006 and Regulation (EC) No. 1272/2008

Last Revision Date 19-Sep-2024 Version: 2

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product Name Ficote Total 17-9-11+2MgO+TE; 5-6M

Product Code 7621-225HA
Unique Formula Identifier (UFI) Not required
Safety data sheet number 7621-225HA

REACH registration number
Pure substance/mixture
Not applicable
Mixture

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

**Recommended Use** Fertilizer (PC12). Restricted to professional users.

Uses Advised Against Consumer use (SU21)

Reason why uses advised against Use advised against in Chemical Safety Assessment per REACH Annex I point 7 2.3

### 1.3. Details of the supplier of the safety data sheet

Everris International B.V.Nijverheidsweg 1-5; 6422 PD Heerlen (NL); Tel: +31 (0)45-5609100; Fax: +31 (0)45-5609190

For further information, please contact: INFO-RA@ICL-GROUP.COM

Non-Emergency Telephone Number +31 (0) 418655700

### 1.4. Emergency telephone number

IN CASE OF AN EMERGENCY CALL: +44 1235 239 670 (24/7)

| Europe         | 112                   |
|----------------|-----------------------|
| Austria        | +43 1 406 43 43       |
| Belgium        | +32 (0) 70 245 245    |
| Denmark        | +45 8212 1212         |
| Finland        | 0800 147 111          |
| France         | +33 (0)1 45 42 59     |
| Ireland        | 01 809 2566           |

### **SECTION 2: Hazards identification**

### 2.1. Classification of the substance or mixture

Classification according to Regulation (EC) No. 1272/2008 [CLP]

| Chronic aquatic toxicity | Category 3 - (H412) |
|--------------------------|---------------------|
|--------------------------|---------------------|

#### 2.2. Label elements

#### **Hazard statements**

H412 - Harmful to aquatic life with long lasting effects

### 2.3. Other hazards

No information available.

### **SECTION 3: Composition/information on ingredients**

### 3.1 Substances

Not applicable

### 3.2 Mixtures

| Chemical name  | EC No (EU<br>Index No)      | Weight-%   | Regulation<br>(EC) No.<br>1272/2008<br>[CLP]   | concentration<br>limit (SCL) | number                    | M-Factor | M-Factor<br>(long-term) |

<sup>\*</sup>The exact percentage (concentration) of composition has been withheld as a trade secret

### Full text of H- and EUH-phrases: see section 16

### **Acute Toxicity Estimate**

If LD50/LC50 data is not available or does not correspond to the classification category, then the appropriate conversion value from CLP Annex I, Table 3.1.2, is used to calculate the acute toxicity estimate (ATEmix) for classifying a mixture based on its components

| Chemical name                                     | Oral LD50 mg/kg | Dermal LD50 mg/kg | Inhalation LC50 - 4 hour - dust/mist - mg/L |
|---|-----------------|-------------------|---|
| Ammonium nitrate; NH <sub>4</sub> NO <sub>3</sub> | 2217            | 5000              | 88.8  |
| ,   |                 |                   | ****  |
| Potassium nitrate; KNO₃                           | 3015            | 5000              | 0.527                                       |
| Copper sulphate anhydrous; CuSO <sub>4</sub>      | 300             | 2000              | No data available                           |
| Manganese sulphate; MnSO <sub>4</sub>             | 782             | No data available | No data available                           |

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

In case of accident or unwellness, seek medical advice immediately (show directions for use General advice

or safety data sheet if possible). First aid measures should be executed by trained

personnel only.

Inhalation In the case of inhalation of aerosol/mist consult a physician if necessary. If not breathing,

> give artificial respiration. If symptoms persist, call a physician. Dusty conditions are unlikely if product is used as intended. However, if prolonged inhalation of dust occurs, remove

casualty to fresh air.

Rinse thoroughly with plenty of water for at least 15 minutes, lifting lower and upper eyelids. Eye contact

Consult a physician.

Skin contact Wash skin with soap and water. In the case of skin irritation or allergic reactions see a

physician.

Ingestion Clean mouth with water and drink afterwards plenty of water. Never give anything by mouth

to an unconscious person. Do not induce vomiting without medical advice.

### 4.2. Most important symptoms and effects, both acute and delayed

**Symptoms** None known.

### 4.3. Indication of any immediate medical attention and special treatment needed

Note to physicians Treat symptomatically.

### SECTION 5: Firefighting measures

### 5.1. Extinguishing media

**Suitable Extinguishing Media** Use extinguishing measures that are appropriate to local circumstances and the

surrounding environment.

CAUTION: Use of water spray when fighting fire may be inefficient. Large Fire

Unsuitable extinguishing media Do not scatter spilled material with high pressure water streams.

**5.2. Special hazards arising from the substance or mixture**Thermal decomposition can lead to release of irritating and toxic gases and vapors.

In case of fire, the product will smoulder even without the presence of external oxygen. In these conditions the product will show self sustaining decomposition. The best method to extinguish the fire is to cool the decomposition front with water Thermal

decomposition can lead to release of irritating and toxic gases and vapors

Hazardous Combustion Products Carbon oxides. Phosphorus oxides. Ammonia. Nitrogen oxides (NOx).

5.3. Advice for firefighters

Special protective equipment and precautions for fire-fighters

Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear.

### SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions Ensure adequate ventilation. Wear protective gloves/clothing and eye/face protection.

**Other information** Refer to protective measures listed in Sections 7 and 8.

For emergency responders

Use personal protection recommended in Section 8. Prevent entry into waterways, sewers,

basements or confined areas.

6.2. Environmental precautions

**Environmental precautions** See Section 12 for additional Ecological Information. Do not flush into surface water or

sanitary sewer system.

6.3. Methods and material for containment and cleaning up

**Methods for containment** Prevent further leakage or spillage if safe to do so.

Methods for cleaning up Take up mechanically, placing in appropriate containers for disposal. Use up product

completely. Packaging material is industrial waste.

**Prevention of secondary hazards** Clean contaminated objects and areas thoroughly observing environmental regulations.

6.4. Reference to other sections

Reference to other sections See section 8 for more information. See section 13 for more information.

### SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Advice on safe handling Ensure adequate ventilation. Avoid breathing dust/fume/gas/mist/vapors/spray. Avoid

contact with eyes. Avoid generation of dust. In case of insufficient ventilation, wear suitable

respiratory equipment.

General hygiene considerations Handle in accordance with good industrial hygiene and safety practice. Keep away from

food, drink and animal feeding stuffs. When using do not eat, drink or smoke.

7.2. Conditions for safe storage, including any incompatibilities

Storage Conditions KEEP OUT OF REACH OF CHILDREN AND PETS. Keep container tightly closed in a dry

and well-ventilated place. For quality reasons: Keep out of reach of direct sunlight, store under dry conditions, partly used packaging should be closed well. Keep away from frost.

Packaging materials Keep in original container, tightly closed in a safe place.

7.3. Specific end use(s)

Specific use(s) Fertilizer.

**Exposure scenario** Mixture. Not required.

Risk Management Methods (RMM) The information required is contained in this Safety Data Sheet.

**Other Information** 

PGS-7 (The Netherlands) 2/B LGK (Germany) TRGS 510 13

### **SECTION 8: Exposure controls/personal protection**

### 8.1. Control parameters

### **Exposure Limits**

**Derived No Effect Level (DNEL)** 

No information available.

8.2. Exposure controls

Personal protective equipment Wear normal, light working clothing

**Eye/face protection** Wear safety glasses with side shields (or goggles).

**Hand protection** Nitrile rubber (0.26 mm). Break through time. > 8 h.

**Skin and body protection** Lightweight protective clothing.

**General hygiene considerations** Handle in accordance with good industrial hygiene and safety practice.

Environmental exposure controls Local authorities should be advised if significant spillages cannot be contained. Prevent

product from entering drains.

### **SECTION 9: Physical and chemical properties**

9.1. Information on basic physical and chemical properties

Physical state Solid
Appearance: Prills
Color: Brown

Odor: Fertilizer.

<u>Property</u> <u>Values</u> <u>Remarks • Method</u>

Melting Point/Freezing Point:No data availableNone knownBoiling Point/Range:No data availableNone knownFlammability (solid, gas):No data availableNone known

Flammability Limits in Air:

Upper Flammability Limit:

Not applicable

Not applicable

Upper Flammability Limit: Not applicable
Lower Flammability Limit: Not applicable

Flash Point: No data available None known Autoignition Temperature: No data available None known

**Decomposition Temperature:**None known

No data available None known pH (as aqueous solution) No data available None known **Kinematic Viscosity:** No data available None known **Dynamic Viscosity:** No data available None known No data available None known Water solubility None known No data available Solubility(ies) No data available None known **Partition Coefficient:** None known Vapor Pressure: No data available

Relative density

No data available

None known

No data available

None known

No data available

Bulk density

No data available

Density:

No data available

Vapour densityNo data availableNone known

Particle characteristics

Particle Size No data available Particle Size Distribution No data available

### 9.2. Other information Not applicable

9.2.1. Information with regard to physical hazard classes

Not applicable

**Explosive properties:** Doesn't present explosion hazard

9.2.2. Other safety characteristics

No information available

### **SECTION 10: Stability and reactivity**

10.1. Reactivity

**Reactivity** Not reactive.

10.2. Chemical stability

**Stability** Stable under normal conditions.

Specific methods:

Sensitivity to mechanical impact Not sensitive. Sensitivity to static discharge Not sensitive.

10.3. Possibility of hazardous reactions

Possibility of hazardous reactions None under normal processing.

Hazardous Decomposition Products: Thermal decomposition can lead to release of irritating and toxic gases and vapors.

10.4. Conditions to avoid

**Conditions to avoid** Keep away from open flames, hot surfaces and sources of ignition.

10.5. Incompatible materials

Incompatible materials Keep away from catalysts like derivates of hexavalent chromium and metal halides. Keep

away from flammable products (fuels) like charcoal, wood, flour, soot etc.

10.6. Hazardous decomposition products

Hazardous Decomposition Products None under normal use conditions. None under normal processing. Thermal decomposition

can lead to release of irritating and toxic gases and vapors.

### **SECTION 11: Toxicological information**

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

### Information on likely routes of exposure

**Product Information** 

**Inhalation** Specific test data for the substance or mixture is not available. Inhalation of dust in high

concentration may cause irritation of respiratory system.

**Eye contact** Specific test data for the substance or mixture is not available. May cause irritation.

**Skin contact** May cause irritation.

**Ingestion** May cause gastrointestinal discomfort if consumed in large amounts.

Symptoms related to the physical, chemical and toxicological characteristics

**Symptoms** No information available.

Numerical measures of toxicity

**Acute toxicity** 

The following values are calculated based on chapter 3.1 of the GHS document

**ATEmix (oral)** 46,729.00 mg/kg

0 % of the mixture consists of ingredient(s) of unknown acute toxicity

#### **Component Information**

| Chemical name                                       | Oral LD50          | Dermal LD50        | Inhalation LC50       |
|---|--------------------|--------------------|-----------------------|
| Ammonium nitrate; NH <sub>4</sub> NO <sub>3</sub>   | = 2217 mg/kg (Rat) | > 5000 mg/kg (Rat) | > 88.8 mg/L (Rat)4 h  |
| Potassium nitrate; KNO₃                             | = 3015 mg/kg (Rat) | > 5000 mg/kg (Rat) | > 0.527 mg/L (Rat)4 h |
| Iron sulphate; FeSO <sub>4</sub> +7H <sub>2</sub> O | = 1520 mg/kg       | -                  | -                     |
| Copper sulphate anhydrous; CuSO <sub>4</sub>        | = 300 mg/kg (Rat)  | > 2000 mg/kg (Rat) | -                     |
| Manganese sulphate; MnSO <sub>4</sub>               | = 782 mg/kg (Rat)  | -                  | > 4.45 mg/L (Rat)4 h  |

### Delayed and Immediate Effects as well as Chronic Effects from Short and Long-Term Exposure:

**Skin corrosion/irritation**No information available.

Serious eye damage/eye irritation No information available.

**Respiratory or skin sensitization** Based on available data, the classification criteria are not met.

Germ cell mutagenicity Based on available data, the classification criteria are not met.

**Carcinogenicity**Based on available data, the classification criteria are not met. **Reproductive toxicity**Based on available data, the classification criteria are not met.

The table below indicates ingredients above the cut-off threshold considered as relevant

which are listed as reproductive toxins.

STOT - single exposure STOT - repeated exposure Aspiration hazard Based on available data, the classification criteria are not met. Based on available data, the classification criteria are not met Based on available data, the classification criteria are not met

**Endocrine disrupting properties** 

Not applicable.

### **SECTION 12: Ecological information**

### 12.1. Toxicity

**Ecotoxicity** Harmful to aquatic life with long lasting effects.

### Unknown aquatic toxicity

Contains 6 % of components with unknown hazards to the aquatic environment.

| Chemical name              | Algae/aquatic plants | Fish                 | Toxicity to    | Crustacea        |
|----------------------------|----------------------|----------------------|----------------|------------------|
|                            |                      |                      | microorganisms |                  |
| Copper sulphate anhydrous; | -                    | LC50: =0.1mg/L (96h, | -              | EC50: 0.0058 -   |
| CuSO <sub>4</sub>          |                      | Oncorhynchus mykiss) |                | 0.0073mg/L (48h, |
|                            |                      |                      |                | Daphnia magna)   |

### 12.2. Persistence and degradability

Persistence and Degradability: No information available.

12.3. Bioaccumulative potential

**Bioaccumulation** There is no data for this product.

**Component Information** 

| Component information    |                       |
|--------------------------|-----------------------|
| Chemical name            | Partition coefficient |
| Ammonium nitrate: NH₄NO₃ | -3.1                  |

### 12.4. Mobility in soil

Mobility in soilno data available.Mobilityno data available.

#### 12.5. Results of PBT and vPvB assessment

### PBT and vPvB assessment

| Chemical name            | PBT and vPvB assessment         |
|--------------------------|---------------------------------|
| Ammonium nitrate; NH₄NO₃ | The substance is not PBT / vPvB |
| Potassium nitrate; KNO₃  | The substance is not PBT / vPvB |

| Copper sulphate anhydrous; CuSO <sub>4</sub>             | The substance is not PBT / vPvB |
|--|---------------------------------|
| Manganese sulphate; MnSO <sub>4</sub>                    | The substance is not PBT / vPvB |
| Zinc sulphate+1H2O; ZnSO <sub>4</sub> +1H <sub>2</sub> O | The substance is not PBT / vPvB |

### 12.6. Endocrine disrupting properties

### 12.7. Other adverse effects

. No information available.

## **SECTION 13: Disposal considerations**

### 13.1. Waste treatment methods

Waste from residues/unused

products

Dispose of in accordance with local regulations. Dispose of waste in accordance with

environmental legislation.

**Contaminated packaging** Do not reuse empty containers.

Other Information Use up product completely. Packaging material is industrial waste. If material is

uncontaminated, collect and reuse as recommended for product.

### **SECTION 14: Transport information**

| IMDG            |      |
|-----------------|------|
| 14.1_<br>UN-No: |      |
| UN-No:          | 2071 |

#### **European Union**

Take note of Directive 98/24/EC on the protection of the health and safety of workers from the risks related to chemical agents at work.

### Take note of Directive 94/33/EC on the protection of young people at work

Not to be used by professional users below 18 years of age, see the National Working Environment Authorities Executive Order on young peoples dangerous work.

#### Authorizations and/or restrictions on use:

This product contains one or more substance(s) subject to restriction (Regulation (EC) No. 1907/2006 (REACH), Annex XVII)

| Chemical name  | Restricted substance per REACH Annex XVII | Substance subject to authorization per REACH Annex XIV |
|--|---|--|
|  | Use restricted. See entry 58.             | -  |
| Ammonium nitrate; NH <sub>4</sub> NO <sub>3</sub>        |   |  |
|  | Use restricted. See entry 75.             | -  |
| Iron sulphate; FeSO <sub>4</sub> +7H <sub>2</sub> O      |   |  |
|  | Use restricted. See entry 75.             | -  |
| Copper sulphate anhydrous; CuSO <sub>4</sub>             |   |  |
|  | Use restricted. See entry 75.             | -  |
| Zinc sulphate+1H2O; ZnSO <sub>4</sub> +1H <sub>2</sub> O |   |  |

REGULATION (EU) 2019/1148 on the marketing and use of explosives precursors

| Chemical name                                     | REGULATION (EU) 2019/1148 on the marketing and           |  |
|---|--|--|
|   | use of explosives precursors                             |  |
| Ammonium nitrate; NH <sub>4</sub> NO <sub>3</sub> | Present (16% by weight of N in relation to AN or higher) |  |
| Potassium nitrate; KNO <sub>3</sub>               | Present  |  |

Acquisition, introduction, possession or use of this product by the general public is restricted by Regulation (EU) 2019/1148. All suspicious transactions, and significant disappearances and thefts should be reported to the relevant national contact point.

### **Persistent Organic Pollutants**

Not applicable

Named dangerous substances per Seveso Directive (2012/18/EU)

| Chemical name            | Lower-tier requirements (tons) | Upper-tier requirements (tons) |
|--------------------------|--------------------------------|--------------------------------|
|                          | 350                            | 2500                           |
| Ammonium nitrate; NH4NO3 |                                | 5000                           |

### Ozone-depleting substances (ODS) regulation (EC) 1005/2009

Not applicable

EU - Plant Protection Products (1107/2009/EC)

| Chemical name                                       | EU - Plant Protection Products (1107/2009/EC) |
|---|---|
|   | Plant protection agent                        |
| Iron sulphate; FeSO <sub>4</sub> +7H <sub>2</sub> O |   |

### Biocidal Products Regulation (EU) No 528/2012 (BPR)

**International Inventories:** 

This product complies with USINV **TSCA** PICCS: This product does not comply with phil: **Australian Inventory of Chemical** This product does not comply with AICS

**Substances** 

#### Legend:

DSL/NDSL - Canadian Domestic Substances List/Non-Domestic Substances List

EINECS/ELINCS - European Inventory of Existing Chemical Substances/European List of Notified Chemical Substances

**ENCS** - Japan Existing and New Chemical Substances

IECSC - China Inventory of Existing Chemical Substances

**KECL** - Korean Existing and Evaluated Chemical Substances

PICCS - Philippines Inventory of Chemicals and Chemical Substances

AICS - Australian Inventory of Chemical Substances

### 15.2. Chemical safety assessment

**Chemical Safety Report** 

Substance(s) usage is covered according to Reach regulation 1907/2006

### **SECTION 16: Other information**

#### Key or legend to abbreviations and acronyms used in the safety data sheet

#### Full text of H-Statements referred to under section 3

H272 - May intensify fire; oxidizer

H302 - Harmful if swallowed

H315 - Causes skin irritation

H318 - Causes serious eye damage

H319 - Causes serious eye irritation

H332 - Harmful if inhaled

H360 - May damage fertility or the unborn child

H373 - May cause damage to organs through prolonged or repeated exposure

H400 - Very toxic to aquatic life

H410 - Very toxic to aquatic life with long lasting effects

H411 - Toxic to aquatic life with long lasting effects

#### Legend

SVHC: Substances of Very High Concern for Authorization:
PBT: Persistent, Bioaccumulative, and Toxic (PBT) Substances
vPvB: Very Persistent and very Bioaccumulative (vPvB) Substances

### Legend Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

TWA TWA (time-weighted average) STEL STEL (Short Term Exposure Limit)

Ceiling Maximum limit value Sk\* Skin designation

#### Classification procedure

Calculation method

Expert judgment and weight of evidence determination

| Classification procedure  |                    |
|---|--------------------|
| Classification according to Regulation (EC) No. 1272/2008 [CLP] | Method Used        |
| Acute oral toxicity   | Calculation method |
| Acute dermal toxicity   | Calculation method |
| Acute inhalation toxicity - gas                                 | Calculation method |
| Acute inhalation toxicity - vapor                               | Calculation method |
| Acute inhalation toxicity - dust/mist                           | Calculation method |
| Skin corrosion/irritation                                       | Calculation method |
| Serious eye damage/eye irritation                               | Calculation method |
| Respiratory sensitization                                       | Calculation method |
| Skin sensitization  | Calculation method |
| Mutagenicity  | Calculation method |
| Carcinogenicity   | Calculation method |
| Reproductive toxicity   | Calculation method |
| STOT - single exposure  | Calculation method |

| STOT - repeated exposure | Calculation method |
|--------------------------|--------------------|
| Acute aquatic toxicity   | Calculation method |
| Chronic aquatic toxicity | Calculation method |
| Aspiration hazard        | Calculation method |
| Ozone                    | Calculation method |
